

Improving access to GP services

Age Alliance Wales and the Bevan Foundation are charities which want to improve access to GP services for older people. We need your help to do this.

Please tell us what happens when you contact your GP's practice by filling in this short survey.

Please look at the questions below and tick the box next to your answer. For some answers, you can write down more detail if you want to.

The answers you give are strictly confidential. We will add them together and use them in a report. We might quote some of the extra detail you provide but you will not be identified if we do. We do not ask for your name or address and we do not need to know anything about your health.

When you have finished please put the survey in an envelop marked 'AGE ALLIANCE GP SURVEY'. You can give it to the person who asked you to complete it or post it to the Bevan Foundation at the address at the end.

Thank you very much for your help
